about MAYACREATIONS

We at MAYA Creations are a devoted team of skilled young people who are willing to give web design solutions a new definition. Not just by adding lots of Magazines or Gadgetry to our web hosting packages we are giving out the most reliable and down to earth web hosting and web designing experience in Sri Lanka.

Since we've started in 2005 we gradually build our client base. Some of the big projects we handle includes Government Institutions, Major National companies and more.

Currently we don't hold the #1 place in the hosting world of course (everyone put that on their site by the way). But we are deeply devoted to achieve that goal. At least in the web container.

There's a big road ahead on the web hosting and web designing world. So we assure you to go that distance with the reliable and affordable services of MAYA Creations.
